Aztec, New Mexico

Re: Supplement NW 2202
El Paso - Heaton No. 8
B-30-31-11
Dual Completion -
Aztec Pictured Cliffs

*After Sir, Your Honor,
That maybe 1/4 mile shouldn't
make much difference since
we're now going 1 3/4 mile to
extend a pool.*

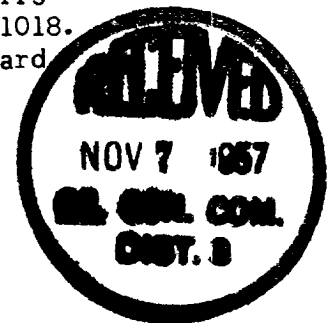

*Actually it is
nearer 1 1/2 mi.*

Dear Emery:

Apparently the above-mentioned supplement was issued prematurely when the well was farther than one mile from the Aztec Pool limit and the supplement subsequently cancelled. I would believe that this well should now be prorated as of July 1, 1957 due to the extension of the Aztec Pictured Cliffs Pool to include the E/2 of Section 32-31-11 as per Order R-1018. If you agree, we should have authority from you in this regard.

Very truly yours,

Elvis A. Utz
ELVIS A. UTZ
Gas Engineer

EAU:omg

*Elvis,
This well still is about a
mile and a quarter from the pool
boundary & therefore still should not
be prorated (See R565-C & 1 ~~of record~~)*
Emery
