Att: Mr. Herman High

Dear Mr. High:

We have received Form C-103 on your #1 Government-Cain well in Unit A, Section 25-31N-13W indicating that you are dually completing this well in the Mesaverde and Dakota formations.

I am enclosing a memorandum #18-56 which sets out proper procedure for securing approval of dually completed wells. You should write a letter to this office setting out briefly your equipment plan for this well. Upon final completion it will be necessary that you secure administrative approval from A. L. Porter, director of the Commission, as set out in Rule 112. Please note that it is necessary to either use dual tubing strings or install a side door choke in your 2" tubing above the packer. You did not mention on the Form C-103 submitted if this had been done.

If we can be of any further service, please let us know.

Yours very truly

Emery C. Arnold
Supervisor, District #3
