*Gentlemen:*

*Your Ute Indian Well #7 in H-28-31N-16W, Horseshoe Gallup Pool, was assigned an initial allowable on August 23, 1959.*

*Oil Conservation Commission rules require that a gas-oil ratio test be conducted between 30 and 60 days after completion and submitted to this office not later than 10 days thereafter.*

*We have not received a gas-oil ratio test on this well as of this date, and for that reason have not given the well a December allowable. Will you please submit this test immediately in order to avoid further loss of allowable.*

*Yours very truly*

Supervisor, District #3*
