December 30, 1958

Well No. Navajo 25 is located 1900 ft. from N line and 417 ft. from E line of sec. 29

22 NE Sec. 29 31N 14W L.M.P.M.
(34 Sec. and Sec. No.) (Twp.) (Range) (Meridian)

Hernandez Gallup San Juan New Mexico
(Field) (County or Subdivision) (State or Territory)

The elevation of the ground ~~surface~~ above sea level is 543.5 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudlogging jobs, cementing points, and all other important proposed work)

This well was potentialized for 20 B.O.P.D. It is believed that by refracturing, this well should be capable of producing the field allowable. It is proposed to treat the perforation 1304-1326 with 25,000 gals lease crude containing 100,000# 10/20 sand.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
