DOMESTIC CRUDE OIL PRODUCTION

29-31-16

Mr. Emery C. Arnold
New Mexico Oil Conservation Commission
Box 697
Aztec, New Mexico

Dear Mr. Arnold,

We are enclosing Form C-103 as a result of the fracture treatment of our Navajo Well #25.

Since this well was produced directly into the frac tanks during the test, we were unable to obtain a gas-oil ratio. This test will be taken as soon as possible and reported on Form C-116.

However, we should like to have the top field allowable assigned to this well on the basis of the oil test shown in the section Results Of Workover.

Sincerely yours,

L. B. Kelly
