(Meridian)

Verde Gallup
(Field)

San Juan County
(County or Subdivision)

New Mexico
(State or Territory)

The elevation of the derrick floor above sea level is 5594 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We would like to defer permanent abandonment until completing the Geological and Engineering studies currently in progress.

Ute Mountain Tribal 2-29-2X is still safely cased and controlled and is periodically checked by field personnel. No hazard will be created by deferring abandonment.

We request approval to leave the well temporarily abandoned.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
