

EMPIRE STATE OIL COMPANY
THERMOPOLIS, WYOMING

20 April 1966

New Mexico Oil Conservation Commission
P.O. Box 2088
Santa Fe, New Mexico

Attention: Mr. A. L. Porter, Jr.

Gentlemen:

This letter is a request from Empire State Oil Company, Box 871, Thermopolis, Wyoming, to the New Mexico Oil Conservation Commission for approval, without formal notice and hearing, to initiate an experimental steam soak treatment in Verde Gallup Field, San Juan County, New Mexico. The test well will be Southern Union Production Company's Ute-Indian #2-20 well located 700 feet from South Line and 1940 feet from East Line in SE/4 Section 20, Township 31 North, Range 14 West, N.M. P.M., San Juan County, New Mexico.

Pursuant to a telephone conversation on April 14, 1966, with Mr. Emery Arnold of your Aztec, New Mexico office, we are enclosing letters of waiver from the offsetting operators as follows:

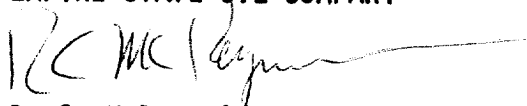

Mobil Oil Company
Pan American Petroleum Corporation
Standard Oil Company of Texas

We are also enclosing Designation of Operator forms from Southern Union Production Company and Aztec Oil and Gas Company covering Section 20, Township 31 North, Range 14 West, San Juan County, New Mexico.

We propose to inject steam into the Gallup formation in well #2-20 for a continuous period of ten days; allow the well to soak for several days, then put the well on production. We will use a portable steam generator rated at 10mm BTU's/hr. which will convert approximately 700 bbls. water per day into steam.

Yours very truly,

EMPIRE STATE OIL COMPANY

R. C. McReynolds
