Re: Illegal pit fire

Dear Ernie:

At approximately 12:45 p. m., February 2, 1981, Mr. Gholson from our office and I observed a large plume of smoke north of Aztec. Upon investigation we discovered that a pit at the Koch Exploration Company, Lambe #1, A-20-31N-10W, San Juan County, was on fire and unattended. An Employee of Koch later drove up and admitted that he had started the fire. The fire burned for approximately one hour, indicating that a large quantity of oil, perhaps as much as twenty barrels, had burned.

This fire was set without permission of this office in direct violation of Rule 311 and caused the waste of oil which might have otherwise been put to beneficial use.

I recommend that the appropriate legal action be taken against Koch Exploration Company for this violation.

If you have any questions, please contact this office.

Yours truly,

Frank T. Chavez  
District Supervisor
