- Item 1: If the proposal is to perform certain well operations, as indicated, on all types of lands and leases for appropriate action by either applicable Federal and/or State laws and regulations. Any necessary special instructions concerning the use of this form should be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by, or may be issued by, the local Federal and/or State office.
- Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult local Federal and/or State office for specific instructions.
- Item 14: Needed only when location of well cannot readily be found by road from the land or lease description. A plat, or plats, separate or on this reverse side, showing the roads to, and the surveyed location of, the well, and any other required information, should be furnished when required by Federal or State agency offices.
- Items 15 and 18: If well is to be, or has been directionally drilled, give distances for subsurface location of hole in any present or objective production zone.
- Item 22: Consult applicable Federal or State regulations, or appropriate officials, concerning approval of the proposal before operations are started.
