Re: Western Energy Corporation  
Ute #2 Well  
San Juan County, New Mexico

Dear Lynn:

Pursuant to our recent telephone conversations, we have been working on the captioned well in order to re-establish production, and keep this well from being plugged and abandoned. Fortunately, we were successful in our endeavors and oil production has again commenced.

We are enclosing copies of the following reports and forms for this well which are being filed or have been filed with the U. S. Geological Survey in Durango, Colorado and/or the District III office of the NMOCC:

1. "Sundry Notices and Reports on Wells," Form 9-331, U. S. Geological Survey.
2. "Gas-Oil Ratio Tests," Form C-116, New Mexico Oil Conservation Commission.

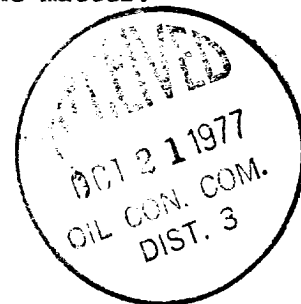

Based upon these reports and forms, and the concurrence of Al. R. Kendrick, Supervisor of District III, New Mexico Oil Conservation Commission, we hereby request the dismissal of Case No. 6052 set for hearing in Santa Fe, New Mexico on October 26, 1977.

Thank you for your assistance and cooperation in the matter.

Sincerely,

ORIGINAL SIGNED BY  
RICHARD TULLY
