Re: Our Government-Southern Union #1-19
SW/4 Sec. 19 T31N R12W
San Juan County, New Mexico.

Subject well was put on stream November 25, 1957. Initial and annual deliverability test for the Dakota side of this dual producer has been filed. Due to some trouble with separator and dehydrator equipment during the original conditioning period the Mesa Verde side was shut in for several days making it necessary to start conditioning again. Accordingly we request a fifteen day extension for the Mesa Verde test until January 24, 1958.

Yours very truly,
Colorado Western Exploration, Inc.
