☐ Change of Plans  
☐ New Construction  
☐ Non-Routine Fracturing  
☐ Water Shut-Off  
☐ Conversion to Injection  
☐ Dispose Water

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Plans are to add the Pictured Cliff interval to the existing Mesaverde well & then commingle production from both zones per Order 11210. The individual well commingling application has be filed and no commingling will occur until approval is received. Brief details of the procedure we will use are as follows:

MIRU COOH w/production tubing. Isolate existing Mesaverde interval with a bridge plug. Pressure test casing and remediate if casing fails pressure test. Run GR/CCL/CBL and remediate with cement if it is inadequate. Perforate and stimulate the Picture Cliffs. Remove bridge plug and return well to production with Mesaverde and Pictured Cliffs commingled.

14. I hereby certify that the foregoing is true and correct
