Re: Application for topographic
Gas Proration Unit
Township 32 North, Range 12 East
Section 14: All

Gentlemen:

Reference is made to your letter dated March 21, 1958, calling our attention that the number of acres to be dedicated to the above mentioned Gas Proration Unit covering the above captioned acreage should be 346.80 acres.

Upon checking the Township Plat issued by the Surveyor General's Office, Santa Fe, New Mexico, dated April 7, 1891 covering the above captioned acreage, we find that Section 12 is shown as containing 346.80 acres. We would appreciate your rechecking your figures to determine whether 346.80 acres is correct.

In the event your figures are based on a later survey, if possible, it would be greatly appreciated if you could forward the plat of survey to this office so that we may obtain a copy for our records.

Very truly yours,

Harry Goveats
Area Engineer
Land Department
