

1. If the core is not a continuous section, the depth of the core should be indicated in the "Remarks" section. If the core is a continuous section, the depth of the core should be indicated in the "Remarks" section. If the core is a continuous section, the depth of the core should be indicated in the "Remarks" section.

2. If the core is not a continuous section, the depth of the core should be indicated in the "Remarks" section. If the core is a continuous section, the depth of the core should be indicated in the "Remarks" section. If the core is a continuous section, the depth of the core should be indicated in the "Remarks" section.

3. If the core is not a continuous section, the depth of the core should be indicated in the "Remarks" section. If the core is a continuous section, the depth of the core should be indicated in the "Remarks" section. If the core is a continuous section, the depth of the core should be indicated in the "Remarks" section.

4. If the core is not a continuous section, the depth of the core should be indicated in the "Remarks" section. If the core is a continuous section, the depth of the core should be indicated in the "Remarks" section. If the core is a continuous section, the depth of the core should be indicated in the "Remarks" section.

5. If the core is not a continuous section, the depth of the core should be indicated in the "Remarks" section. If the core is a continuous section, the depth of the core should be indicated in the "Remarks" section. If the core is a continuous section, the depth of the core should be indicated in the "Remarks" section.

6. If the core is not a continuous section, the depth of the core should be indicated in the "Remarks" section. If the core is a continuous section, the depth of the core should be indicated in the "Remarks" section. If the core is a continuous section, the depth of the core should be indicated in the "Remarks" section.

7. If the core is not a continuous section, the depth of the core should be indicated in the "Remarks" section. If the core is a continuous section, the depth of the core should be indicated in the "Remarks" section. If the core is a continuous section, the depth of the core should be indicated in the "Remarks" section.

8. If the core is not a continuous section, the depth of the core should be indicated in the "Remarks" section. If the core is a continuous section, the depth of the core should be indicated in the "Remarks" section. If the core is a continuous section, the depth of the core should be indicated in the "Remarks" section.

9. If the core is not a continuous section, the depth of the core should be indicated in the "Remarks" section. If the core is a continuous section, the depth of the core should be indicated in the "Remarks" section. If the core is a continuous section, the depth of the core should be indicated in the "Remarks" section.

10. If the core is not a continuous section, the depth of the core should be indicated in the "Remarks" section. If the core is a continuous section, the depth of the core should be indicated in the "Remarks" section. If the core is a continuous section, the depth of the core should be indicated in the "Remarks" section.

37. SUMMARY OF POROSITY ZONES:

SHOW ALL IMPORTANT ZONES OF POROSITY AND CONTENTS THEREOF; CORRELATE INTERVALS; AND ALL DRILL-STEM TESTS, INCLUDING DEPTH INTERVAL TESTED, CUSHION TEST, TIME TOOL OPEN, FLOWING AND SHUT-IN PRESSURES, AND RECOVERIES

FORMATION	TOP	BOTTOM	DESCRIPTION, CONTENTS, ETC.	NAME	TOP	
					MEAS. DEPTH	TRUE VERT. DEPTH
