Re: Application for Permit to Drill
Cox Canyon Unit Com No. 12
SE/4 Sec 20, T32N, R11W
Pictured Cliffs

Gentlemen:

Information regarding existing roads, pipeline, flow line, etc. relative to the above well location are included on the enclosed attachments.

Water for drilling and completion operations will be obtained from a nearby water hole. Waste disposal will be buried in the burn pit, latrine or reserve pit. There will be no camp or air strip associated with drilling this well. Upon completion or abandonment of this well the location will be cleaned, leveled and a dry hole marker placed, if applicable.

Yours truly,
Northwest Pipeline Corporation

O.B. Whitenburg
Drilling & Production Engineer.
