Gentlemen:

I have examined the application dated 8-17-92
for the Kimberly Oil & Gas Co. Gator #1 A-3-11-11
Operator Lease and Well No. Unit, S-T-R

and my recommendations are as follows:

Approved 1000' / 11 300' E. Location in sand
to the S, in the Land Manager area. Left well at 1000'.
Reasons were too much surface cutting, too much sand over the
rock, and too much sand in the well. Since it is a 2" well it would
be putting the pit in solid rock. They were also afraid extra
fractures may develop which would go to the sand wall.

Yours truly,
Jeff A. Edmister

operating conditions + economics?

Dear Mr. Chavez:

On behalf of Kimbark Oil and Gas Company, Powers Elevation Company hereby requests a spacing exception for the above location due to rugged terrain in the area.

Enclosed are copies of letters sent certified mail to all offset operators giving notice of the intent of Kimbark Oil and Gas Company. Also enclosed are an Elevation Plat and a Topo Plat.

Kindly notify Powers Elevation of the decision made on this request.

Respectfully,

POWERS ELEVATION
