13. Describe Proposed or Completed Operations

Southland Royalty Company requests an extension to May 1, 1996 of the original Sundry Notice for the subject well. The original approved Sundry requested a six month shut-in for the subject well due to high water volumes and low gas volumes resulting in this well being non-economical to produce. This well is currently being evaluated for the possibility of the following work to decrease the water production and increase the gas production: pump installation and/or pulling 2 3/8" tubing. Clean out wellbore until formation stabilizes. Run a 4 1/2" liner and rerun the 2 3/8" tubing.
