Dear Sirs:

RE: Federal 32-6-9 #1
Sec. 9-T32N-R6W
San Juan County, New Mexico

Consolidated Oil & Gas, Inc. (Consolidated), as operator of the above referenced well, has applied to the State of New Mexico for an exception to Rule 111 - Deviation Tests and Direction Drilling. After an extensive search of the files received by Consolidated from the previous operator that drilled the well, no deviation survey data could be located nor could we find that any data was filed with the State at the time the well was drilled. In Consolidated's completion operations, no well bore problems indicating a deviated hole were encountered and all necessary reports have been filed with the State of New Mexico.

Consolidated is required to obtain Meridian's approval to the granting of this exception since it operates the Allison Unit #135 well.

Please acknowledge your approval to Consolidated being granted an exception to Rule 111 - Deviation Tests and Direction Drilling - by signing and faxing a copy of this letter to Consolidated at (303) 893-0715, and returning one hard copy using the self-addressed, stamped envelope provided.

Thank you for your prompt attention to this matter.

Sincerely,

Alan C. Harrison (by B. J. Whitney)
