Dear Mr. LeMay,

This is a request on behalf of Williams Production Company for administrative approval of an exception to Rule 111 for the above referred to intentionally deviated well.

The Rosa Unit #90A is being directionally drilled from a legal location in the northeast quarter of Section 33, to a legal bottomhole location in the southeast quarter of Section 33, to avoid numerous archaeological sites. We were unable to find any location in the southeast quarter that did not impact archaeological sites and was outside the limits of Navajo Lake.

I have attached for your review an acreage plat, outlining the dedicated acreage, and describing the proposed surface and bottomhole locations. I have also attached a copy of the topo map.

As operator of the Rosa Unit, Williams Production Company is the only offset operator in the Mesa Verde formation.

Thank you for your consideration and approval of this application. If you have any questions please do not hesitate to call upon me.

Sincerely,

Paul C. Thompson
