LOG OF OIL OR GAS WELL

A blank sheet of graph paper with a grid pattern. The grid consists of horizontal and vertical lines forming small squares. There are approximately 10 columns and 8 rows visible. The lines are thin and black, set against a white background. The edges of the paper are slightly irregular, suggesting it might be a scan of a physical document.

The information given here is a complete and correct copy of the original and all other documents and records of the same and is being furnished to you for your information and use.

Sincerely,
 [Signature]

(Don't use pg 6)

GIL OR GAS BANDS OR ZONES

IMPORTANT WATER SAMPLES

[illegible]

It is of the greatest importance to have a complete history of the well. Please state in detail the dates of redrilling, together with the reasons for the work and its results. If there were any changes made in the casing, state fully, and if any casing was "sidetracked" or left in the well, give its size and location. If the well has been dynamited, give date, size, position, and number of shots. If plugs or bridges were put in to test for water, state kind of material used, position, and results of pumping or bailing.
