17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

erson. Well is not capable of producing oil in commercial quantities.  
Set cement plug in casing open hole zone and continue 5' up inside  
of 7" casing. Shoot off 7" casing at 1300'. Set 50' of cement  
across shooting point. Spot 50' of cement across bottom of surface  
casing. Set it back in top of hole and erect a hole marker.

## Instructions

**General:** This form is designed to be used in submitting proposals to perform certain well operations, and reports of such operations when completed, as indicated, on Federal and Indian lands. It is to be used in accordance with applicable Federal law and regulations, and, if approved or accepted by any State, or all lands in such State, pursuant to applicable State law and regulations. Any necessary Federal instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, or are shown below or will be issued by, or may be obtained from, the local Federal and/or State office.

**Item 4:** If there are any applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal office for specific instructions.

**Item 17:** Proposals to abandon a well and subsequent reports of abandonment should include such special information as is required by local Federal and/or State offices. In addition, such proposals and reports should include reasons for the abandonment; data on any former or present productive zones, or other zones with present significant fluid contents not sealed off by cement or otherwise; depths (top and bottom) and method of placement of cement plugs; mud or other material placed below, between and above plugs; amount, size, method of parting of any casing, liner or tubing pulled and the depth to top of any left in the hole; method of closing top of well; and date well site conditioned for final inspection looking to approval of the abandonment.
