Attn: Mr. L. D. Galloway

Dear Mr. Galloway:

Reference is made to your letter of July 11, 1961 regarding Bradenhead tests which have been conducted on the Fields #5 in L-28-32N-11W.

We have studied the data submitted and have concluded that the evidence of casing failure is indicated. We are, therefore, instructing that remedial action be taken in the immediate future. In the event that you still think that there is some doubt regarding the nature of the failure, we will be glad to witness any further tests you care to make.

Yours very truly
