☐ Water Shut-Off  
☐ Conversion to Injection  
☐ Dispose Water

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

This Well Navajo P-5 Has been ready for producyion BUT NEEDS  
RODS PULED Electric problems with Transformer on this line.  
Will put back into production when that is fixed. Due to the  
Elec, Contractor Too busy and Pulling unit tied up on plugging  
wells. Steve said I should ask for 6 months to put on production.  
Sept1 that would be March 1 1998. P- 5 produced 149,000 Barrels on  
Production should do good on Secondary Repressurizing.

REMOVE INTENT TO PLUG
