DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Well spudded 8/15/60.

Drilled a 15" hole to a depth of 235'. Set 10-3/4" 32.75# H-40 casing at 228' cemented w/200 cas. Pressured casing to 500# for 30 min. w/no drop in pressure. After cement set plug was drilled and BOP closed and casing pressured to 500# for 30 min. w/no appreciable drop in pressure. Drilling ahead resumed.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company Delhi-Taylor Oil Corporation
