Ate names of and expected depths to objective ing p A in our intention to dril the Gallup formation. Our 25° of 8-5/8" 60 engine.			, coment-
It is our intention to dril the Gallup Formation. Our 25' of 8-5/8" GD enging, 1300' of the GD enging, to the doubgrated drilling with the June Greaty, New Header	sands; show sizes, weights, a coints, and all other imports I wall the. 5 to enable program is commuted with I to commuted with I to the St/1-10.	and lengths of proposed casings; indicate mudding jobs and proposed work) Approximately 1300° to test is as failures S sacks regular commt, to be in 50 meter commt. M/A of Section 33-223-47111	1959 1. COM.
It is our intention to dril the Gallup Formation. Our 25' of 8-5/8" GD enging, 1300' of the GD enging, to the doubgrated drilling with the June Greaty, New Header	sands; show sizes, weights, a coints, and all other imports I wall the. 5 to enable program is commuted with I to commuted with I to the St/1-10.	and lengths of proposed casings; indicate mudding jobs and proposed work) Approximately 1300° to test to an fellower S sacks regular equant, to be a 50 make canona. M/A of Section 33-328-17111	1959 1. COM.
A is our intention to dril the Gallup Formation. Our 25' of 8-5/8" 60 easing, 300' of his 60 easing, to the doulgasted drilling uni the June Gounty, New Munice Tunderstand that this plan of work must recompany SKELLY OIL COMPANY	sands; show sizes, weights, a coints, and all other imports it will lie. 5 to enable with it is commuted with it is the emented with it is the emented with it.	and lengths of proposed casings; indicate mudding jobs and proposed work) Approximately 1300° to test is as failures S sacks regular commt, to be in 50 meter commt. M/A of Section 33-223-47111	1959 1. COM.
It is our intention to dril the Gallup Fermation. Our 25' of 8-5/8" 60 engine, 1980' of the 60 engine, to The doubgrated drilling uni the Jum Grunty, New Norder Tunderstand that this plan of work must recompany SKELLY OTL COMPANY Box 426	sands; show sizes, weights, a coints, and all other imports it will lie. 5 to enable with it is committed with it is the say, and the say,	and lengths of proposed casings; indicate mudding jobs and proposed work) Approximately 1300° to test is as fallows: 5 sacks regular ement, to be the proposed servers. M/A of Section 33-325-17111 MAY 2 5 OIL CON the Geological Survey before operations may be beginning.	1959 1. COM.
A is our intention to dril the Gallup Fermation. Our 25' of 3-5/5" 60 enging, 1900' of 12" 60 enging, to The doubgrated drilling uni the Jum Grunty, New Norder Tunderstand that this plan of work must recompany SKELLY OTL COMPANY Box 426	sands; show sizes, weights, a coints, and all other imports it will lie. 5 to encing program it commuted with 1 to commuted with 1 to commuted with 1 to the say.	and lengths of proposed casings; indicate mudding jobs and proposed work) Approximately 1300° to test in an fallows: S engine regular ement, to be the proposed work. M/A of Section 33-325-47111 MAY 2.5 OIL CON the Geological Survey before operations may backer.	1959 1. COM.
A is our intention to dril the Gallup Formation. Our 25' of 3-5/5" 60 ensing, 300' of 14" 60 ensing, to The doulgasted drilling uni the June Gounty, New Mondon Tunderstand that this plan of work must recompany SKELLY OIL COMPANY Box 426	sands; show sizes, weights, a coints, and all other imports it will lie. 5 to encing program it commuted with 1 to commuted with 1 to commuted with 1 to the say.	and lengths of proposed casings; indicate mudding jobs and proposed work) Approximately 1300° to test in an fallows: S engine regular ement, to be the proposed work. M/A of Section 33-325-47111 MAY 2.5 OIL CON the Geological Survey before operations may backer.	1959 1. COM.
A is our intention to dril the Gallup Formation.
