s well has been drilled to a suntering any commercial edi	ls; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cement- es, and all other important proposed work)  A Total Depth of 1195' and fully tested without it or gas pay. Wall to be plugged as follows:
e well has been drilled to a suntering any commercial ed 7' - 1063' with 15 mades on	a Total Depth of 1195' and fully tested without a gree pay. Wall to be plugged as follows:
s well has been drilled to a suntering any commercial eli 7' - 1063' with 15 masks on 1 Ag <sup>*</sup> (3) casing, Will set 25	a Total Depth of 1195' and fully tested without i or gas pay. Wall to be plugged as follows: mant, Will rem free point indicator, out off and sawk coment plug where easing to get off a contract.
e well has been drilled to a suntering any commercial eil 7' - 1083' with 15 macks on 1 Ag <sup>*</sup> (2) casing, Will set 25	a Total Depth of 1195' and fully tested without i or gas pay. Well to be plugged as follows: must, Will run free point indicator, out off and sack coment plug where easing is out off, 5 sack 6-5/8'GD surface coming with A' nine market
e well has been drilled to a contaring any commercial ed 7' - 1083' with 15 mades on 1 Ag*(D) casing, Will set 25 out ping to be set in top of anding A' above ground level	a Total Depth of 1195' and fully tested without i or gas pay. Well to be plugged as follows: must, Will ren free point indicator, out off and sank comment plug where easing is out off, 5 sank ( 6-5/8"CD surface easing with A" pipe marker is
e well has been drilled to a contaring any commercial ed 7' - 1083' with 15 mades on 1 Ag*(D) casing, Will set 25 out ping to be set in top of anding A' above ground level	a Total Depth of 1195' and fully tested without i or gas pay. Well to be plugged as follows: must, Will run free point indicator, out off and sack coment plug where easing is out off, 5 sack 6-5/8'GD surface coming with A' nine market
e well has been drilled to a contering any commercial edi ?' - 1083' with 15 mades on 1 Ag*(D) casing, Will set 25 and ping to be set in top of unding A' above ground level	to do this work by Phil NeGrath,
e well has been drilled to a puntering any commercial edi ?' = 1083' with 15 mades on 1 Age(E) casing, Will set 25 not ping to be set in top of unding A' above ground lovel	t Total Depth of 1195' and fully tested without it or gas pay. Well to be plugged as follows: must, Will rem free point indicator, out off and mask comment plug where easing is out off, 5 sack 6-5/8"CD surface easing with 4" pipe marker is
e well has been drilled to a puntering any commercial edi ?' = 1083' with 15 mades on 1 Age(E) casing, Will set 25 not ping to be set in top of unding A' above ground lovel	t Total Depth of 1195' and fully tested without it or gas pay. Well to be plugged as follows: must, Will rem free point indicator, out off and mask comment plug where easing is out off, 5 sack 6-5/8"CD surface easing with 4" pipe marker is
wall has been drilled to pentering any commercial cil  " - 1003" with 15 sacks con  Add (D) casing, Will set 25  at ping to be set in top of  making 4" above ground level  al approval has been given	to do this work by Phil McGrath.
well has been drilled to a untering any commercial cil ' - 1003' with 15 mades con Age(D) casing, Will set 25 at ping to be set in top of adding A' above ground level al approval has been given	to do this work by Phil McGrath.
well has been drilled to a untering any commercial cil " - 1003" with 15 sacks con Age(5) casing, Will set 25 at ping to be set in top of ming 4" above ground lovel al approval has been given derstand that this plan of work must receive ag	to do this work by Phil McCrath.
wall has been drilled to pentering my commercial cil  "-1005" with 15 sacks com  "Ad"(D) casing, Will set 25  at ping to be set in top of  making 4" above ground level  al approval has been given  converted that this plan of work must receive ap  pany SKELLY OIL COMPANY	to do this work by Phil McGrath.
well has been drilled to a untering any commercial cill - 1003; with 15 mades con 42°CD casing, will not 25 at ping to be set in top of nating 4, above ground level al approval has been given derstand that this plan of work must receive apparatus any SKELLY OIL COMPANY  Box 426	to do this work by Phil McGrath.
well has been drilled to a centering any commercial cil " - 1005; with 15 sacks con Ag"(E) casing, Will set 25 at ping to be set in top of ending 4; above ground level al approval has been given cony SKELLY OIL COMPANY	to do this work by Phil McGrath.
well has been drilled to a contering any commercial cil. "- 1045' with 15 mades con Ad"(D) casing, will set 25 mt ping to be set in top of nding 4' above ground level al approval has been given been	Total Depth of 1195' and fully tested without it of gas pay. Well to be plugged as follows:  must. Will rem free point indicator, out off and sack comment plug where easing is out off, 5 sack 6-5/8"CD surface easing with 4" pipe marker  to do this work by Phil McCrath.  1959  pproval in writing by the Geological Survey before operationalisty by compressed.
well has been drilled to a contering any commercial cil. "- 1045' with 15 mades con Ad"(D) casing, will set 25 mt ping to be set in top of nding 4' above ground level al approval has been given been	to do this work by Phil McGrath.
well has been drilled to a contering any commercial cil. "- 1045' with 15 mades con Ad"(D) casing, will set 25 mt ping to be set in top of nding 4' above ground level al approval has been given been	to do this work by Phil McCrath.  1959  1959  1959  1959  1959
well has been drilled to attering any commercial cil 1005; with 15 sacks con id-(D) casing, Will set 25 i ping to be set in top of ling 4; above ground level capproval has been given retand that this plan of work must receive ap my SKELLY DIL COMPANY  Box 426	By (Signed) P. E. Cosper
