It is of the greatest importance to have a complete history of the well. Please state in detail the dates of setting, together with the reasons for the work and its results. If there were any changes made in the casing, state them, and if any casing was "backed" or left in the well, give the size and location. If the well has been dynamited, give date, size, position, and number of shots. If pipes or bridges were put in to test for water, state kind of material used, position, and results of pumping or balling.
