Re: Culpepper Martin #13 N-29-32N-12W

Dear Smitty:

The attached Packer-Leakage test for the referenced well was inconclusive in proving zone separation.

Please reschedule and retest this well in such a manner as to prove zone separation. Please advise this office at least 24 hours prior to the test so we may provide a witness.

If you have any questions, please contact this office.

Yours truly,
