

AFFIDAVIT

Before me, the undersigned authority, on this day personally appeared Curtis J. Little of 2929 Monte Vista, NE, Albuquerque, New Mexico, known to me to be a credible person of legal age, who after being by me first duly sworn, on oath, deposes and says:

On December 23, 1963 deviation tests were conducted by employees of Scott Bros. Drilling Company in the 4-27 Navajo located 660' from the South line and 660' from the East line of Section 27, T. 32N, R. 17W, NMPM, San Juan County, New Mexico.

Eastman Oil Well Surveying Company equipment was used as follows:

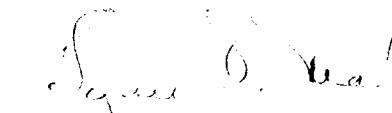

1. First survey at approximate depth of 610' below the surface indicated a drift of $3/4^{\circ}$ from vertical.
2. Second survey at approximately 1850' below the surface showed a drift of $1/2^{\circ}$ from vertical.

The records of the above surveys are on file in the office of Curtis J. Little.

Affiant further states that he is his own agent and representative and operator of the 4-27 Navajo well and as such is duly authorized to make this affidavit.

CURTIS J. LITTLE
Operator

SUBSCRIBED AND SWORN TO, before me, this the 26th day of June, A. D., 1964.

Notary Public

My Commission Expires January 13, 1967

1. Introduction

The purpose of this study is to investigate the effect of the introduction of a new technology on the productivity of a firm. The study is based on a sample of 100 firms that have introduced a new technology in the last five years. The data is collected from a survey of these firms.

The first part of the study is a descriptive analysis of the data. This part will provide information on the characteristics of the firms in the sample, such as their size, industry, and the type of technology introduced. The second part of the study is an analysis of the effect of the technology on productivity.

The third part of the study is a discussion of the results and their implications. This part will discuss the findings of the study and their implications for the firm and the industry. The fourth part of the study is a conclusion and a list of references.

The study is organized as follows. The first chapter is an introduction. The second chapter is a literature review. The third chapter is a methodology. The fourth chapter is a data analysis. The fifth chapter is a discussion of the results. The sixth chapter is a conclusion and a list of references.

The study is based on a sample of 100 firms that have introduced a new technology in the last five years. The data is collected from a survey of these firms. The sample is representative of the population of firms that have introduced a new technology in the last five years.

The study is organized as follows. The first chapter is an introduction. The second chapter is a literature review. The third chapter is a methodology. The fourth chapter is a data analysis. The fifth chapter is a discussion of the results. The sixth chapter is a conclusion and a list of references.
