RE: Extension Test Allowable
Ute #7

18-19-32-14

Bush Creek Ranch

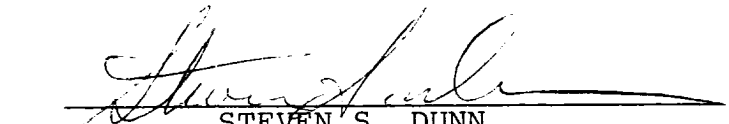

Gentlemen:

We request an extension of our test allowable C-104 for the subject well for an additional 60 days.

We are currently scheduled to go to a hearing before the Commission to obtain permission for a non-standard proration unit for this well. The extension will allow us to continue clean-up and evaluation work on this lease while our application is pending before the oil commission.

Yours very truly,

MERRION & BAYLESS

STEVEN S. DUNN
Engineer
