Well **N011 Navajo** is located **400** ft. from **N** line and **1660** ft. from **E** line of sec. **23**

Section 23 **32N** **18W** **MTM**
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)
Undesignated **San Juan County** **New Mexico**
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is **3440** ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Set approximately 30 feet of 7" - 23# surface pipe with 6 sacks cement, pilot drill ahead 200 feet with 6-1/4" bit to see if air drilling possible. Drill with either air or drilling mud to test Tuzito sandstone at about 1425 feet, drill ahead to 1500 feet and run electric log, plug and abandon or run 4-1/2" production string on results of Tuzito core or electric log analysis.

If 4-1/2" production string is run, will cement with 50 sacks.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company **Exploration Drilling Company**

Address **910 Petroleum Club Building**

Denver 2, Colorado

By

Ross E. Wells

Title **Exploration Manager**

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the integrity of the financial system and for the ability to detect and prevent fraud.

2. The second part of the document outlines the specific requirements for record-keeping. It states that all transactions must be recorded in a timely and accurate manner, and that the records must be maintained for a minimum of five years. It also discusses the importance of ensuring that the records are accessible and can be easily reviewed.

3. The third part of the document discusses the importance of internal controls. It states that internal controls are essential for ensuring the accuracy and reliability of the financial statements. It also discusses the importance of having a strong internal control system in place to prevent and detect fraud.

4. The fourth part of the document discusses the importance of external audits. It states that external audits are essential for providing an independent and objective assessment of the financial statements. It also discusses the importance of having a strong relationship with the external auditor and of providing them with all the information they need to perform their duties.

5. The fifth part of the document discusses the importance of transparency. It states that transparency is essential for building trust and confidence in the financial system. It also discusses the importance of providing clear and concise information to the public and of being open and honest about all transactions.

NEW MEXICO OIL CONSERVATION COMMISSION

Well Location and Acreage Dedication Plat

SECTION A.

Date December 27, 1961

Operator Exploration Drilling Company Lease _____
 Well No. #11 Unit Letter _____ Section 23 Township 32 North Range 18 West NMPM
 Located 400 Feet From North Line, 1660 Feet From East Line
 County San Juan G. L. Elevation 5436 Dedicated Acreage 40 Acres
 Name of Producing Formation Gallup-Paria Sand Pool Undesignated

1. Is the Operator the only owner* in the dedicated acreage outlined on the plat below? Yes _____ No X
2. If the answer to question One is "No," have the interests of all the owners been consolidated by communitization agreement or otherwise? Yes X No _____. If answer is "Yes," Type of Consolidation Assignment of Spinning Rights (1962) above Sanctioned from Texas Pacific and Murphy Corporation.
3. If the answer to question Two is "No," list all the owners and their respective interests below:

OWNER

LAND DESCRIPTION
