Re: LA PLATA MANCOS UNIT #3 (G-32)
G-32-32N-13W
API 30-045-20329

Dear Charlie:

After further research of our files and discussions with the State Land Office, the final decision was for the state simply to approve the expansion of the La Plata Mancos Unit to include the NE/4 of Section 32 (the BLM had approved it in July 1988). So that is what has been done and the well is part of the unit effective as of October 1, 1979; so we have gotten it tied into our gas gathering system and the well is producing – not much, but it is producing. Accordingly it is not ready to be plugged.

Yours truly,

BENSON-MONTIN-GREER DRILLING CORP.
