Gentlemen:

The attached packer-leakage test report for the subject well indicates communication between the producible zones.

You are hereby directed to take immediate action to cause the well to comply with Rule 112-A, Section VI of the Rules and Regulations of the Oil Conservation Division. As this is a new well which is not yet producing into a pipeline, no Form C-104, Request for Allowable and Authorization to Transport Oil and Natural Gas, will be approved for this well until an approved packer-leakage test has been filed with this office.

If there are any questions, please contact us.

Yours truly,

Frank T. Chavez  
Deputy Inspector
