Dear Dick:

Attached are:

1. A copy of an application for Multiple Completion filed in August, 1978.
2. A copy of a revised schematic for that application filed in October, 1978.

This well was included in Case No. 6352 heard October 11, 1978.

This well was removed from the case because the operator elected to run a packer instead of the PBR.

What is the shortest route for the operator to obtain a Multiple Completion Order?

Yours very truly,

A. R. Kendrick  
District Supervisor
