

MERIDIAN OIL - OPERATION PLAN  
USA #2 HORIZONTAL RE-ENTRY

CONFIDENTIAL

OTHER CONSIDERATIONS

- The North half (SW/4) of Section 24 will be dedicated as a standard gas spacing unit and a non-standard oil spacing unit for the project.
- The wellbore will remain in the standard drilling window (no closer than 790' from the outer boundary of the S/2 of section 24).
- No abnormal pressure or temperature zones are anticipated.
- No hazardous zones are anticipated (H<sub>2</sub>S, etc.).
- Cementing vendor will provide the BLM a chronological log including the pump rate and pressure, and the slurry density and volume for all cement work performed.
