Date

OIL CONSERVATION COMMISSION,  
Santa Fe, New Mexico

Gentlemen:

Following is a notice of intention to do certain work as described below at the

Pubco Development Inc. State Well No. 1 in SE/4  
Company or Operator Lease  
of Sec. 36, T. 32 N, R. 12 E, N. M. P. M. La-Plata - Blanco Field.  
San Juan County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Workover # 1 ended August 18, 1952 when the cable tool rig was moved off. At that time, two strings of cable tools were left in the casing. The well would head and kink the cable tool line and drop tools in the hole. It was therefore decided to get a gas rotary rig on the location to clean out the cable tools and put the well back on production without reshooting as was originally planned. The well was cleaned out to 5310 with cable tools before the fishing jobs caused the cable tool rig to be moved off. It is now proposed to attempt to clean out the cable tools and put the well back on production without reshooting. ( Gas rotary rig)

Approved \_\_\_\_\_, 19\_\_\_\_
