Oklahoma City, Okla.

Att: Mr. A. E. Sanky
Office Manager

Dear Mr. Sanky:

We have received your letter of February 8 in which you enclosed 3 copies of Form C-101, Notice of Intention to Drill, and 1 copy of a surveyor's plat showing the location to be 330 feet from the south line and 2310 feet from the east line of Section 3, Township 14 N, Range 10 West, Wildcat field, in McKinley County. This location is approved as of today; however I call your attention to a memorandum to all operators issued by the Oil Conservation Commission on January 2, 1952, giving notice that from that date 5 copies of the Notice of Intention to Drill are required, and we are enclosing herewith extra copies of the Form C-101 and a sample copy of a surveyor's plat that is in general use and may be of some help to you in preparing the extra copies of this plat needed. One surveyor's plat should be attached to each copy of the Notice of Intention to Drill.

Just as soon as we receive in this office the extra copies required, your approved copy will be mailed to your office, which address must be plainly stated in the space provided for it, in the lower right hand corner of the Notice of Intention to Drill, which you did not fill out in the copies we received. However, we presume the address to be Charles L. Jenkins & I.R. McQueen, 1009 Colcord Building, Oklahoma City. If this is not the correct address to which you wish further communications forwarded, please advise.

You also failed to fill in the first line of the Notice of Intention to Drill showing place and date. Therefore, we have dated the form as per your letter, i.e. February 8, 1952 at Oklahoma City, Okla.

Yours very truly,

cc Bill Cane, Comm
Lester D.
