Dr. Sherman A. Wengerd
Geology Department
University of New Mexico
Albuquerque, New Mexico

Dear Doc:

Enclosed is a supply of Forms C-103 and C-105, which you have requested.

The well in question is the Spanish Bit Oil Co. #1 Santa Fe in the ~~SE1/4~~ Section 35-17N-8W. The Bonding Company has requested release under the bond and we are at the present time unable to release them as all we have on file is a Notice of Intention to Drill. Therefore if you will please fill out the Well Record as indicated and a record of plugging on the Form C-103 we will be able to release the bonding company.

A man from our Aztec office attempted to check the location last Friday but was unable to find it. I think that sandstorms in the area must have completely covered the location so we will be forced to take your word for the fact that the well is plugged.

I enjoyed the open house very much. If you should get up to the Basin any time in the future be sure and stop and pay us a visit.

Yours very truly

Emery C. Arnold
Supervisor, District #3
