Re: Penn Building
Co. Well #1

Dear Sir:

Enclosed please find the following forms in regard to the above well.

1. Notice of intention to change plans.
2. Report on beginning drilling operations.
3. Notice of intention to test casing shut-off.
4. Report on result of test of casing shut-off.
5. Report on result of plugging of well.
6. Notice of intention to plug well.
7. Form C-105 Well Record.

I believe that ~~with~~ the foregoing records should complete your file regarding subject test well.

In regard to the description which originally appeared on Form C-101 wish to advise that this description was changed to SE NE NW Section 22, Township 28N, Range 2E the day after Form C-101 was filed. This changed was made in your Santa Fe Office and approved there. They apparently neglected to advise you of this alteration. I am sorry if this caused you any inconvenience and in order to clear your records I have made out Form C-102 Notice of Intention to Change Plans which covers alteration of the description of the North El Vado Test Well. Trusting that the enclosed information is satisfactory and sorry to be late but it is rather difficult to compile the necessary reports when you are busy in the field away from your office.

Sincerely yours,

Southwestern Exploration Co.
