## SUNDRY NOTICES AND REPORTS ON WELLS

NOTICE OF INTENTION TO DRILL		SUBSEQUENT REPORT OF WATER SHUT-OFF	
NOTICE OF INTENTION TO CHANGE PLANS		SUBSEQUENT REPORT OF SHOOTING OR ACIDIZING	
NOTICE OF INTENTION TO TEST WATER SHUT-OFF		SUBSEQUENT REPORT OF ALTERING CASING	
NOTICE OF INTENTION TO RE-DRILL OR REPAIR WELL		SUBSEQUENT REPORT OF RE-DRILLING OR REPAIR	
NOTICE OF INTENTION TO SHOOT OR ACIDIZE		SUBSEQUENT REPORT OF ABANDONMENT	
NOTICE OF INTENTION TO PULL OR ALTER CASING		SUPPLEMENTARY WELL HISTORY	
NOTICE OF INTENTION TO ABANDON WELL	<input checked="" type="checkbox"/>		

(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

May 7, 1953

Jenkins-Ped.  
Well No. 2 is located 1650 ft. from NE line and 1650 ft. from W line of sec. 15

NE 1/4 Sec. 15 (1/4 Sec. and Sec. No.) 26 (Twp.) 7 W. (Range) 11 (Meridian)

So. Hanco (Field) Rio Arriba (County or Subdivision) New Mexico (State or Territory)

The elevation of the derrick floor above sea level is 6139 ft. (DF)

## DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

While cleaning this well out after shut, it began to flow a 2" stream of water. A Halliburton packer and cement plug was set in the 5 1/2" production string at 2170 ft. While locating the csg. leak the Halliburton tool became lodged in the 5 1/2" csg. at 1130 ft. After fishing for a total of ten days it became obvious that the contractor was neither equipped nor competent to successfully complete the fishing job. The operator therefore wishes to pull what casing can be recovered and plug and abandon the hole and skid the rig 100 ft. south and re-drill the well.

Plugging to be accomplished by completely cementing up top of casing remaining in hole, setting intermediate plug between there and surface with 50 sacks and cementing up surface csg. and leaving iron marker in surface csg. to locate well.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
