Mr. R.R. Spurrier, Director
New Mexico Oil Conservation Com.
Box 871
Santa Fe, N.M.

Dear Sir:-

I inclose herewith copy of location plat and notice of intention to drill.

You will note that it is an unorthodox location. The reason for such a location is that to make an orthodox location would require ~~xxxxxxxxxxxx~~the building of a prohibitively costly road over very rough and hilly terrain. The lands surrounding this location are under the same ownership, being all in the Stanolind Rosa unit, and all of Federal ownership. I inclose a plat showing the portion of this unit set aside for this well. I respectfully request that you grant an exception for this location and advise the Oil and Gas Supervisor of the U.S. Geological Survey.

Very truly yours,

Neville G. Penrose and J.L. Tatum
