Page No. 4
December 23, 1963

whose leases we were crowding, and drilled the well at an unorthodox location in the southeast 40-acre subdivision of its 160-acre unit. We believe that in the absence of objection by operators whose lands we are crowding, the Commission should by administrative order approve this unorthodox location.

We would be pleased, at any time convenient to the members of the Commission staff, to review the items discussed herein, and to make a field inspection of the Puerto Chiquito Pool and all wells located in it. We feel it is most important for the continued orderly development of the pool that a clear understanding be had between the operators and the Commission staff as to spacing regulations in this pool.

Yours very truly,

BENSON-MONTIN-GREER DRILLING CORP.
