Gentlemen:

On January 27, 1959 we wrote you a letter about your #1 McConnell well in the SW¹ Section 12-27N-13W. We have since found that we do have a Federal Well Record on a well in Unit M of Section 12-27N-13W and presume that this is the only well drilled in the Southwest Quarter of Section 12.

If we are correct in assuming that the location previously filed in Unit N of Section 12 has been abandoned in favor of locating the well in Unit M, then you may disregard our letter of January 27. We are sorry that the confusion in our files resulted in this error.

Yours very truly
