17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This well was drilled to a T.D. of 1336' in 1926 and completed from Dakota Formation perms 1328-36' for an IP of 225 BOPD. The well is non-commercial. In May, 1948 the well was temporarily abandoned after an attempt to cut and pull 7" casing. We propose to plug and abandon the well as follows:

5 sack plug at 428' where 5½" casing was cut in 1948.

5 sack plug at surface.

Erect dry hole marker and clean location.

18. I hereby certify that the foregoing is true and correct
