Re: Gipson Oil Corp.
John Bergin #2 F-21-29N-11W

Dear Jeff:

I located the referenced well on 3-4-86. It was drilled to a depth of 660' in 1925 and does not appear to be cased. It lies on a commercial lot within the Bloomfield City Limits, in an area which is being rapidly developed. It is only about 80' from U.S. 64.

In order to prevent waste, protect fresh water and eliminate a potential hazard, please docket a case calling for Gipson Oil Co., and all other interested parties to appear and show cause why the John Bergin #2, located 2440' from the North-line and 1520' from the West line of Section 21, Township 29 North, Range 11 West, should not be plugged and abandoned in accordance with a Division approved plugging program.

If possible, I would like to get this on the same docket as the Suntex and Alana cases.

Yours truly,

Charles Gholson
Oil & Gas Inspector
