RE: **Coal Creek Oil Co. Graham #1 H-20-29N-11W, API #30-045-08066**
No Plugging Bond

Dear Rand:

On December 22, 1987 Charles Ghoulson found the referenced well uncapped and uncased. This well is in a populated area within the Bloomfield City limits and poses a potential hazard.

Please docket a case calling for Coal Creek Oil Co., and all other interested parties, to appear and show cause why the Graham #1 should not be plugged and abandon in accordance with a division approved plugging program.

Sincerely,

Johnny Robinson
Deputy Oil & Gas Inspector

JR/sh
