

NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS NOTICES

Submit this notice in TRIPLICATE to the District Office, Oil Conservation Commission, before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

OIL CONSERVATION COMMISSION
SANTA FE, NEW MEXICOBloomfield, New Mexico
(Place)November 6, 1953
(Date)

Gentlemen:

Following is a Notice of Intention to do certain work as described below at the.....

The Aerax Company Bishop Well No. 3 in D
(Company or Operator) (Unit)
NW 1/4 NW 22, T 29N, R 11W, NMPM, Bloomfield-Farmington Pool
(40-acre Subdivision) 1/4 of Sec.
San Juan County.

FULL DETAILS OF PROPOSED PLAN OF WORK
(FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS)

This well drilled in 1925 by The Bloomfield Oil & Gas Company, and was completed at a total depth of 700' in the Farmington sandstone.

8-1/4" casing was set at 690'. 10-1/2" set at approximately 200'.

Initial production was approximately 10 barrels oil per day. In 1926 the Fidelity Oil Company purchased this well from the Bloomfield Oil & Gas Co. In Sept. 1929 the Fidelity Oil Company went into receivership and A. C. & Virginia Kittell received title through court order. In 1930 title was transferred to The Aerax Company and they are the present owners. Production at present estimated at 1/2 barrel oil per day.

We propose to pull pipe, plug and abandon as follows: Place 10-sack regular cement plug from 700 to 650, pull all casing, put cement plug in top and leave marker 4' above ground level.

Approved..... 11-7, 19 53
Except as follows:

Approved
