Ritter General Agency
958 Gas & Electric Building
Denver 2, Colorado

Att: Mr. Milton E. Boslaugh

Dear Sir:

Referring to your letter of March 3, 1954, concerning Paul B. Palmer & Associates #1 Hutton, we have not yet had any correspondence concerning the plugging of this well. As soon as we receive such information we will notify you immediately.

The last report we had was that they had plugged the Pictured Cliffs sand and were now trying to cut the casing and recover it.

Yours very truly,

John J. Abendschan
Petroleum Engineer
District #3
