DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

On November 22, 1951, we filed a Notice of Intention to Drill for Solack #10. It was carried as a suspended location for some time but now may be carried as an abandoned location.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
