Abstract

100

San Juan

(County or Subdivision)

Long-Horizon

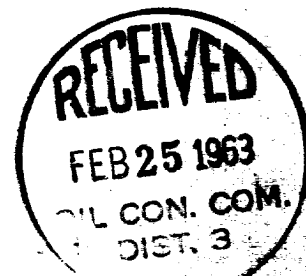

(Weeks of Turnover)

The elevation of the derrick floor above sea level is 6728 ft.

DETAILS OF WORK

(State names of and suggested depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudlogging jobs, cementing points, and all other important proposed work)

Please be advised that we desire to cancel the intention to drill this well. In the event we plan to drill at some future date a new intentions to drill will be filed.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
